

School Sports Funding Report

The PE and Sport Premium Funding is designed to help primary schools improve the quality of the PE and sport activities that they offer to their pupils. At Pickering Infant and Nursery School we choose to spend the majority of our funding on specialist staff who can work alongside our teachers to increase their subject knowledge and skills in delivering a range of areas of the PE curriculum.

September 2015 to July 2016

Funding £8,620

Use of Funding	Cost	Impact
The hire of sports coaches and specialists to offer hour long after school sports clubs focusing on a variety of sports for up to 20 KS1 children; Team Rubicon Multi skills Frisbee Golf/Football	£850	Over the year a range of different sports coaches have been used to provide an increasing range of sports for Key Stage One children at our school. These clubs have included dance, multi skills, Frisbee golf and football. 80 children have benefitted from these clubs - giving them extra opportunities to be active after school hours. 37% of children did not take part in any sporting clubs after school and that has now been reduced to 22% of children.
To subsidise the hire of specialist swimming teachers for our classes of children in Year Two for three terms.	£1,000	All children in Year Two have taken part in a ten week programme at the local swimming pool. This gave all children the opportunity to improve upon their current swimming skills. At the start of the sessions 37% of children were either non swimmers or had no previous experience of swimming. All these children made progress through the taught sessions and by the end of the sessions they all completed stage 1. One child who began as a non-swimmer achieved stage 3. 14% of children completed stage 4 after the ten week programme, swimming at least 25m and some as far as 50m.

<p>Employment of a specialist sports teacher to work alongside KS1 teachers for an afternoon per week for a term to focus on areas of the PE curriculum where teachers feel that they need most support. HLTA time to release teachers for planning time alongside specialist teacher.</p> <p>Support for our 'Playground Buddies' from specialist sports teacher.</p>	<p>£3,000</p>	<p>The specialist sports teacher has worked alongside each member of staff in Key Stage One. They have focused upon particular areas of PE that the teacher has felt least confident in teaching. They have explored different methods of teaching areas such as gymnastics, dance and invasion games. The teachers now have increased knowledge and confidence in teaching these areas of PE.</p>
<p>Increase challenge of outdoor provision for physical activity</p>	<p>£3,400</p>	<p>The funding assigned for our outdoor provision for physical challenge is still in progress. The vision for next year will be for a trim trail of obstacles and equipment will be placed alongside the school field. This will offer children physical challenge and risk taking opportunities during play times, lunchtimes and through planned PE sessions.</p>
<p>Additional resources to support teachers in planning for and delivering high quality PE lessons, including tag bands for playing catch games and floor mats</p>	<p>£370</p>	<p>Resources have been purchased to enable all children to be active during PE sessions. A class set of skipping ropes have been purchased and are all the same. This ensures that all children are able to access this activity, without barriers such as skipping rope length. There have also been a range of different resources purchased to offer a greater variety of experiences including new Frisbee target nets. Some of the new resources also allow opportunities to extend and stretch children during PE sessions, by applying the same skills but to different resources such as different shapes balls. This allows teachers to adapt activities during PE sessions to appropriately challenge and support individual children.</p>
